We really hope you guys like what you see.

Cheers!

Title: Line of Sight - Premium Pack I

Genre: Action

Developer:

BlackSpot Entertainment

Publisher:

BlackSpot Entertainment

Release Date: 8 Sep, 2016

b4d347fde0

Minimum:

OS: Windows 7

Processor: Dual Core 2.0GHz from Intel or AMD 2.0GHz

Memory: 2 GB RAM

Graphics: NVIDIA GeForce 8600/9600GT, ATI/AMD Radeon HD2600/3600

DirectX: Version 9.0c

Network: Broadband Internet connection

Storage: 3 GB available space

English,French,Italian,German,Dutch,Korean,Portuguese,Russian

This game is pretty fun and somewhat challenging. It's fun to play on a tablet. I play on my surface pro.

The rounds are really short, so it's easy to pick up just to pass the time.

I bought it on sale, and I'd definitely say go for it if its <50% off.

I don't regret buying it, but it feels like a game i could download for free on my phone.. I really enjoyed this end to the series. It brought back the horror aspect well, it drew on the first game and second, tied up some loose ends (and... caused a few more. Looking at you Ralph). The puzzles and story elements were fun, although I accidentally skipped some and had no idea what I was meant to be doing on others The photo filter one wasn't a puzzle so much as time consuming, the word underlining puzzle was broken and had to be skipped and the skeleton puzzle had to be very exact

The ending was a little abrupt, but overall, this is a great game to finish the series (And you do need to play the rest of the series to understand what's going on- or at least the second one).. Fun interesting little platformer.. This is a really cool puzzle game powered by your music.. I'm so disappointed by this game not only did it have a meh story but the gameplay.. oh god the gameplay. For a HOG it's okay it does it's game keeps you playing with puzzles and HO games. The problem is the HO games are boring always darkily lit and not interesting. Another problem is that sometimes the items will be in the background but they won't be noticable unless you play on Normal. It's the first game in a while I had to pass on Advanced. Also thank god for the lack of achievements so I don't have to try for that. Also if all these problems weren't bad enough the game ends on a Cliffhanger. So even if your enjoyed the story it doesn't get resolved.

Pretty hard, but its worth the price. Trading cards are hard to get aswell.

. Too exagerated.. This game is great fun! Played it since beta and it has really become a polished joy of a game. If I was to categorize it, I would say it's a top-down stealth survival roguelite. And, it really raises the bar in the any of those categories. It seems to take the best of each of those genres and blend it sucessfully into an intensely stressful ninja-romp through a post apocalyptic nightmare.

It's not an easy game, but if you've played anything else that Puppy Games has made, you shouldn't expect it to be, and that's part of the fun.

It's also quite a departure from their arcade style games. While it feels deeper in many ways, it still retains the quirky and simplistically-well-designed elements and controls that has made their earlier games some of my favorites. As always the graphics and sound design are top notch too. You can tell a lot of heart and soul has gone into this game, I highly reccomend it: 10/10!

P.S. The intro is great, really sets the mood & I really think the wheely bin and binocular view was a neat touch!. Do not buy this ... it is destined to become abandonware ...

DTG are developing a pro version of the 390 with actual VT livery ...

It dosent matter how cheap it is, you will still be buying a chocolate teapot if you buy this ...

If this is still on sale after the new version is released its primary function will be as an "idiot test". Great for nostalgia!. Problem online multiplayer unable to join !!!!!

some one same issue with me?. Better graphics than DR1, and the patches of snow on tarmac are actually effecting the car, but since the force feedback on tarmac is still broken in DR2, there is no point in getting this. I got this with the season pass and tried it a bit with different cars, but it feels better in DR1.

You might want to get it if you are using controller, and\or don't have DR1
